PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

1. OPERATIONS

Pebble Creek Resources (“PCR”) was incorporated in the Province of British Columbia on April 29, 1993, and to 1996, under the name Pebble Creek Power Company Ltd., investigated opportunities in the energy sector. Since that time, PCR has investigated mining prospects in India for the purposes of acquisition, exploration, development and mining of gold, copper, silver and other precious and base metals and diamond properties.

PCR incorporated two subsidiary companies in India to acquire rights to properties under Indian law (Note 3). One of the subsidiary companies, Adi Gold Mining Private Ltd (“Adi”), was incorporated in 1996 for the purposes of acquiring and holding the interests in the Askot Tenure (Note 3) and in the Gadarwara Tenure (Note 3). A second subsidiary, Hirakund Diamond Exploration Private Ltd. (“Hirakund”), was incorporated in 2003 for the purpose of acquiring and holding the interest in the Banda Prospect (Note 3).

PCR entered into an agreement with Broadcast Capital Corp. (“Broadcast”) dated October 6, 2006 and amended on October 24, 2006, pursuant to which the shareholders of PCR would acquire control of the Broadcast, a company listed for trading on the TSX Venture Exchange, through a “reverse take over” (“RTO”). PCR and Broadcast completed a plan of arrangement on December 15, 2006 pursuant to which:

- (a) each issued and outstanding common share of PCR was exchanged for one common share of Broadcast, resulting in the issue of 16,387,521 common shares of Broadcast to the shareholders of PCR
- (b) the jurisdiction of incorporation of Broadcast was continued from the Business Corporations Act (Alberta) to the Business Corporations Act (British Columbia), and Broadcast was renamed “Pebble Creek Mining Ltd.” (“PCM”)
- (c) the outstanding 3,386,830 warrants and 667,500 broker options and warrants to purchase common shares of PCR were exchanged for an equivalent number of options and warrants to purchase common shares of PCM on the same terms as the options and warrants of PCR
- (d) PCR and Broadcast obtained the approval of the transactions described in (a) through (c) above from its shareholders and the appropriate regulatory authorities, including approval of the transaction as a “qualifying transaction” of Broadcast by the TSX Venture Exchange.

On completion of the RTO, PCM had a total of 19,137,523 common shares issued and 4,503,330 common shares reserved for issuance for options and warrants. Of the issued shares, 85.6% were held by previous holders of PCR’s shares and Subscription Receipts and 14.4% were held by previous Broadcast shareholders. Of the options and warrants, 90.0% were held by the previous holders of PCR’s warrants and 10.0% were held by the previous holders of Broadcast options.

PCM and PCR were legally amalgamated on May 30, 2007 and continued operations under the name “Pebble Creek Mining Ltd.”.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

1. OPERATIONS (continued)

In accordance with Canadian generally accepted accounting principles, PCR was identified as the acquirer at the completion of the RTO since the previous shareholders of PCR acquired control of PCM, the legal parent company. Accordingly, the authorized share capital and capital structure presented in these consolidated financial statements is that of PCM, the legal parent, the issued share capital is that of PCR, the legal subsidiary, and the operations for the current period and the comparative figures are those of PCR as that company is considered to be the continuing company.

The fair values of the net assets of PCM (formerly Broadcast) deemed to have been acquired by PCR on the RTO were:

Cash	\$581,830
Accounts receivable	10,555
Accounts payable	(6,900)
	<hr/>
	\$585,485

On completion of the RTO, PCM also changed its year end and that of its Canadian subsidiary company from December 31 to March 31, 2007, to coincide with the statutory year ends of its Indian subsidiaries.

These consolidated financial statements have been prepared on the going concern basis, which presumes that PCM will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. These financial statements do not reflect the adjustments or reclassifications which would be necessary if PCM was unable to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles, which include the following significant policies:

Basis of Consolidation

These consolidated financial statements include the accounts of Pebble Creek Mining Ltd. and its wholly-owned subsidiaries, Pebble Creek Resources Ltd. (until the amalgamation on May 30, 2007), Adi Gold Mining Private Ltd. and Hirakund Diamond Exploration Private Ltd. (individually and collectively referred to as the "Company") prepared on the basis of reverse take over accounting.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign Currency Translation

Assets and liabilities of integrated foreign subsidiary operations and foreign currency denominated assets and liabilities of Canadian operations are translated into Canadian dollars at exchange rates prevailing at the balance sheet date for monetary items and at exchange rates prevailing at the transaction date for non-monetary items. The foreign currency denominated revenues and expenses are translated at the average exchange rate for the reporting period. Gains or losses on translation are reported in operations for the year.

Cash and Cash Equivalents

Cash and cash equivalents includes cash and highly-liquid term deposits that are readily convertible to cash.

Mineral Property Interests

The Company's mineral property interests are composed of rights to explore for, develop and mine minerals under permit, and licences from or leases with governments in India. These agreements require fees, rentals, deposits and work commitments. The Company's rights to mineral properties are described in Note 3.

The Company accounts for its mineral property interests whereby costs relative to the acquisition, exploration and development of these properties are capitalized by property. All sales and option proceeds received are first credited against the costs of the related property, with any excess credited to operations. No gains or losses are recognized on the partial sale or dispositions of properties except in circumstances which result in significant dispositions of reserves. Once commercial production commences, these net costs will be charged to future operations using the unit-of-production method based on estimated recoverable reserves by property. The net costs related to abandoned properties will be charged to operations.

The Company is currently in the exploration stage.

The amounts shown for mineral property interests represent acquisition, holding and exploration costs, and do not necessarily represent present or future recoverable values. The recoverability of these amounts is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain the necessary financing to successfully complete their development and to meet the requirements, from time to time, of lenders, including shareholders, who are providing this financing and upon future profitable production.

The Company reviews the carrying values of its mineral property interests whenever events or changes in circumstances indicate that their carrying values may exceed their estimated net recoverable amounts determined by reference to estimated future operating results and undiscounted net cash flows. An impairment loss is recognized when the carrying value of those assets exceeds their fair value.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Other Capital Assets

Other capital assets are recorded at cost. Amortization is provided using the declining balance method at the following annual rates:

Furniture	20%
Computer	30%
Equipment	14%
Vehicles	26%

The Company reviews the carrying values of its other capital assets whenever events or changes in circumstances indicate that their carrying values may exceed their estimated net recoverable amounts determined by reference to estimated future operating results and undiscounted net cash flows. An impairment loss is recognized when the carrying value of those assets exceeds their fair value.

Asset Retirement Obligations

The Company recognizes liabilities for statutory, contractual or legal obligations associated with the reclamation of mining property, and the reclamation and replacement of plant and equipment, when those obligations result from the acquisition, construction, development or normal operation of the assets. Initially, a liability for an asset retirement obligation is recognized at its fair value in the period in which it is incurred and the corresponding asset retirement cost is added to the carrying amount of the related asset. The cost is amortized as an expense over the economic life of the asset using either the unit-of-production method or the straight-line method, as appropriate. Following the initial recognition of the asset retirement obligation, the carrying amount of the liability is increased for the passage of time and adjusted for changes to the amount or timing of the underlying cash flows needed to settle the obligation.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes. Using this method, income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the amounts reported in the financial statements of the Company and their respective tax bases and for losses carried forward, using enacted or substantially enacted income tax rates. The effect of a change in income tax rates on future tax assets and liabilities is recognized in income in the period in which the change occurs. A future income tax asset is reduced by a valuation allowance when the probability of the realization is other than more likely than not.

Loss Per Share

The basic loss per share is calculated using the weighted average number of common shares of the Company that were outstanding in each reporting period. The diluted loss per share, which is disclosed only if dilutive, includes the potential dilution from outstanding options and share purchase warrants, calculated using the treasury stock method, in the weighted average number of shares outstanding.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial Instruments

The Company adopted the new accounting recommendations of the Canadian Institute of Chartered Accountants for the recognition, measurement and disclosure of financial instruments, hedges and comprehensive income for the fiscal year ended March 31, 2008. The transitional provisions of these recommendations do not require restatement of previous financial statements.

Financial instruments are classified into various categories. Held to maturity investments, loans and receivables are measured at amortized cost, with amortization of premium or discounts, losses and impairment included in current period interest income or expense. Held for trading financial assets and liabilities are measured at fair market value with all gains and losses included in operations in the period in which they arise. Available for sale financial assets are measured at fair market value with revaluation gains and losses included in other comprehensive income until the asset is removed from the balance sheet, and losses due to impairment are included in operations. All other financial liabilities are to be carried at amortized cost.

The Company's most significant financial instruments are cash and cash equivalents, accounts receivable and accounts payable. At present, the Company does not have any held for trading or available for sale financial instruments.

Comprehensive Income

In April 2005, the Canadian Institute of Chartered Accountants issued Section 1530 of the Handbook entitled Comprehensive Income which introduces a new requirement to report comprehensive income, defined as a change in net assets arising from transactions and other events and circumstances from non-owner sources. The unrealized revaluation gains and losses of financial assets that are classified as available for sale are included in other comprehensive income until the asset is removed from the balance sheet.

Share-based Compensation

The Company recognizes all share-based compensation using the fair value method. Under the fair value method, compensation costs, equal to the fair value of share purchase options on the date of grant, are recorded, with an offsetting credit to contributed surplus. Consideration received upon exercise of the share purchase options is recorded as share capital and the contributed surplus related to the recognized fair value of the options which have been exercised is transferred to share capital.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions about future events that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Significant estimates used in the preparation of these consolidated financial statements include, amongst other things, the recoverability of accounts receivable and future income tax assets, and the expected economic lives of and the estimated future operating results and net cash flows from mineral properties and other capital assets.

3. MINERAL PROPERTY INTERESTS

Mineral property interests for which rights are held by Adi and Hirakund are located in India and are regulated by Indian mining law.

The principal mining legislation of India includes The Mines & Minerals (Development & Regulation) Act, 1957, Mineral Concession Rules, 1960 (amended in 2001) and the Mineral Conservation & Development Rules, 1988. Under the Mines & Minerals (Development & Regulation) Act, 1957, minerals are vested within the individual states of India, whereas core mining law is regulated by the central government in New Delhi and administered by the states under the central government's regulation.

There are three forms of tenure under Indian mining legislation, Reconnaissance Permits ("RP"), Prospecting Licences ("PL") and Mining Leases ("ML"). Tenures are only issued to Indian companies, individuals or partnerships.

An RP cannot exceed 5,000 square kilometers ("km"). Any company and its affiliates are limited to holding a maximum of 10,000 square km in any one state. The term of an RP is three years, with a reduction in area mandatory at the second anniversary. The reduction is to 1,000 square km or 50 percent, whichever is less. The holder of an RP also holds preferential rights to a PL within its boundaries.

A PL is generally limited to 25 square km. Any company and its affiliates are limited to holding a maximum of 25 square km in any one state unless the Indian Ministry of Mines waives these limits in the interest of proper resource exploration and development. However, pending legislation before the current session of the Indian parliament proposes to increase the limit on the size of the PL to 500 square km, where that PL derives from an RP, and to similarly increase the state-wide limit. The term of a PL is three years and can be renewed for two additional years. The holder of a PL also holds preferential rights to an ML within its boundaries. The legislation now pending before the government also proposes to change the "preferential" rights to guaranteed rights of RP holders to acquire one or more PLs within their RP areas, and for PL holders to acquire MLs within their PL areas.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

September 30, 2007

(Unaudited)

3. MINERAL PROPERTY INTERESTS (Continued)

An ML is generally limited to 10 square km. A company and its affiliates are limited to holding a maximum of 10 square km in any one state unless the the Indian Ministry of Mines waives the limit in the interest of proper resource development and extraction. The term of an ML is 20 years or 30 years, and can be renewed twice in increments of 20 years. The granting or renewal of an ML requires a mining plan approved by the Government of India.

Surface rights are excluded in all forms of tenure. As work progresses, the mineral tenure holder must reach accommodation with the holder of surface rights, viz. the land owner. In the event a land owner is unreasonably intransigent, the government is empowered to act on behalf of the mineral tenure holder.

Askot Property

In 1996, Adi applied for a Prospecting Licence covering 7.93 square km of the Askot prospect, located in the Pithoragarh district of the state of Uttar Pradesh. The Prospecting Licence Deed was issued to Adi on June 12, 2000, and was initially valid until June 12, 2003.

That part of Uttar Pradesh became the new state of Uttaranchal in November, 2000. Its name was changed to Uttarakhand in January, 2007.

The Prospecting Licence was renewed in 2003 and reached the end of the fixed term on June 12, 2005. During the renewal period, the Company applied to the state government to voluntarily reduce the Prospecting Licence area from 7.93 to 4.84 square kilometers; however the government did not act on the application.

Any action or further discussion of the reduced area became moot on March 11, 2005, when Adi submitted an application for a 30-year Mining Lease covering 3.86 square kilometers within the Prospecting Licence area. Indian law provides that if a Prospecting Licence holder files a Mining Lease application before 90 days prior to the expiry of the Prospecting Licence, the Prospecting Licence continues uninterrupted until the Mining Lease is granted or otherwise disposed of.

Following June 12, 2005, Adi has continued its exploration as before. The State approved the ML application in due course and on September 26, 2007 the Government of India cleared it and returned it to the State for granting. The Company is now submitting the Environmental Clearance, Forest Clearance and other documents for final approval.

Acquisition and exploration expenditures to September 30, 2007 on this property amounted to \$3,082,185

3. MINERAL PROPERTY INTERESTS (Continued)

The Company started a 10,000 metre drilling program on July 4, 2007 and has continued through the end of the quarter and is continuing as of November 29, 2007.

Gadarwara Property

In 1996, Adi applied for several Prospecting Licences covering 379.85 square km at Gadarwara, located in Narsimhapur District in the state of Madhya Pradesh, India. In 2000, under new regulations creating Reconnaissance Permits, a competitor filed an application for a large area including Adi's application. In 2002 Madhya Pradesh improperly executed a Reconnaissance Permit in favour of the competitor. Adi took legal action against the state and prevailed in 2003. The state and Adi finally executed the aforementioned 379.85 square km tract as a Reconnaissance Permit on December 24, 2004. For a period of five months in 2005 Pebble Creek optioned the area and collected a US \$25,000 payment. The option was ended by the optionee upon its takeover by BHP Billiton in August, 2005.

On February 4, 2005, Adi filed a Reconnaissance Permit application for 3,884 square km, called the "Gadarwara Extension," surrounding the existing Gadarwara Reconnaissance Permit as a buffer zone, as is normal industry practice. In February, 2007, the state notified Adi that it had approved the application and was sending it to the Government of India for its approval. Subsequent to the end of the quarter, in October 2007, the Government of India found a minor misprint in the application and returned it to the Company for correction, which has been made.

On December 9, 2006, Adi notified the state government that it had reduced the area of the central Gadarwara Reconnaissance Permit to one-half or 189.9 square kilometers as required by law and the terms of the permit.

The Company started drilling the central Gadarwara RP on August 24, 2007 and completed the program after the end of the quarter on November 15, 2007.

Acquisition and exploration expenditures to September 30, 2007 on this property amounted to \$96,122.

Banda Prospect

In June 2003, Hirakund applied for a Reconnaissance Permit on a 2,012 square km tract (measured by the government as 2,190 square km) in the Banda District of Uttar Pradesh. The Banda RP was executed in May 2006. The only exploration conducted on the area to date consisted of reconnaissance visits.

The Company entered into an agreement with De Beers India Private Limited ("DBIPL") on November 6, 2006 pursuant to which DBIPL could earn an 85% interest in the Banda prospect in return for managing and funding work on the prospect. DBIPL terminated the agreement on September 24, 2007 after conducting indicator mineral studies.

The Company engaged an independent geologist to examine the prospect and review the data.

3. MINERAL PROPERTY INTERESTS (Continued)

Acquisition and exploration expenditures on this prospect by the Company to September 30, 2007, amounted to \$54,249.

Other Prospects

Adi has submitted other applications for RPs in the states of Andhra Pradesh, Madhya Pradesh, Jharkhand, Uttarakhand and Karnataka. None of these RPs has been granted yet. Acquisition and exploration expenditures on these prospects to September 30, 2007 amounted to \$28,535.

5. SHAREHOLDERS' EQUITY (continued)

Of the issued and outstanding shares of the Company, 4,573,312 are held in escrow, to be released upon the approval of regulatory authorities in stages, ranging from 6 months to 6 years from the closing of the reverse takeover (Note 1).

The Company has estimated the fair value of the warrants, options and broker options using the Black-Scholes option pricing model. The following assumptions were used in valuing these warrants and broker options:

Average risk-free interest rate	4.37%
Expected share price volatility	63.95%
Expected average period until exercise	33 months
Expected dividend yield	\$ nil

The following warrants, which entitle the holder to purchase common shares of the Company, were outstanding at September 30, 2007:

Warrants

Number of Shares	Price Per Share	Expiry Date	Date Granted
134,500	\$0.50 CDN	December 29, 2007	May 30, 2001
98,500	\$0.50 USD	December 29, 2007	June 30, 2002
345,600	\$0.70 CDN	November 1, 2007	May 1, 2006

(Unaudited)

5. SHAREHOLDERS' EQUITY (continued)

The Company implemented a rolling share purchase option plan which allows the Company to reserve up to 10% of the issued and outstanding common shares of the Company for granting share purchase options. These options vest immediately for directors and officers, and for employees, they vest either immediately or over the course of one year depending on their history of service. The plan was approved by the TSX Venture Exchange on August 13, 2007, following which the Company granted 850,000 share purchase options to directors, officers and employees, exercisable at \$0.60 per share for a period of five years.

The following share purchase options were outstanding during the period:

Options and Broker Options and Warrants

	September 30, 2007 (6 months) (unaudited)		March 31, 2007 (15 months)	
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
Balance, beginning of period	1,017,507	\$ 0.50	-	\$ -
Granted	850,000	0.60	1,200,840	0.50
Exercised	(105,000)	0.30	(91,667)	0.30
Expired	-	-	(91,666)	0.30
Balance, end of period	1,762,507	\$ 0.57	1,017,507	\$ 0.50
Options exercisable, end of period	1,762,507	\$ 0.57	1,017,507	\$ 0.50

The contractual weighted average remaining life of the outstanding options at September 30, 2007 is 2.75 years. The following share purchase options and broker options and warrants are outstanding at September 30, 2007:

	Number of Shares	Price Per Share	Expiry Date	Date Granted or Issued
Options	70,000	\$0.30 CDN	September 30, 2007	March 24, 2006
Options	445,000	\$0.50 CDN	December 16, 2007	June 16, 2006
Options	91,667	\$0.30 CDN	March 24, 2011	December 15, 2006
Options	83,340	\$0.75 CDN	June 22, 2008	December 22, 2006
Options	850,000	\$0.60 CDN	August 10, 2012	August 10, 2007
Warrants	222,500	\$0.65 CDN	December 16, 2007	June 16, 2006
	1,762,507			

Subsequent to the end of the period, the Company issued 70,000 shares for options which were exercised prior to their expiry on September 30, 2007 for cash proceeds of \$21,000.

(Unaudited)

7. ENVIRONMENTAL

The Company's exploration activities in India are subject to Indian environmental laws and regulations governing the protection of the environment. Currently, Indian law only requires US \$500 for an environmental bond on an exploration property. However, this is expected to increase to an amount more in line with international standards. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

The ultimate amount of reclamation and other future site restoration costs to be incurred for the Company's existing mineral property interests is currently uncertain.

8. RELATED PARTY TRANSACTIONS

The Company paid fees of \$55,873 for the six months ended September 30, 2007 (nine months ended September 30, 2006 - \$50,278) for legal expenses and share issue costs to a legal firm of which one of the partners became an officer of the Company on December 15, 2006. As at September 30, 2007, accounts payable included \$8,169 payable to this legal firm.

The Company also paid management, accounting and consulting fees of \$114,600, included in general and administrative expenses, and geological and engineering fees of \$47,400, included in mineral property acquisition costs, to directors and officers during the six months ended September 30, 2007 (nine months ended September 30, 2006 - \$88,100 and \$58,900, respectively). Accounts payable at September 30, 2007 include \$2,994 which is payable to directors.

PEBBLE CREEK MINING LTD.

Notes to the Consolidated Financial Statements

(Unaudited)

9. SEGMENTED INFORMATION

The Company's worldwide operations are all conducted in one segment, the exploration and development of mineral property interests.

The Company's assets by geographic segment are:

	September 30, 2007 (unaudited)		March 31, 2007	
	Canada	India	Canada	India
Cash	\$ 640,228	\$ 116,025	\$ 796,610	\$ 148,783
Mineral property interests	-	3,261,091	-	2,398,982
Furniture, equipment and vehicles	30,001	203,083	33,137	148,289
Accounts receivable, inventory and prepaid expenses	16,115	142,876	43,102	76,052
	<u>\$ 686,344</u>	<u>\$ 3,723,075</u>	<u>\$ 872,849</u>	<u>\$ 2,772,106</u>

10. FINANCIAL INSTRUMENTS

The carrying values of the Company's financial instruments, which are cash and cash equivalents, accounts receivable, and accounts payable approximate their respective fair values.

The Company incurs certain of its expenses in currencies other than the Canadian dollar. As such, the Company is subject to foreign exchange risk as a result of fluctuations in exchange rates.

11. PREMISES LEASES

The Company has entered into a lease for office premises in Vancouver, Canada, expiring in August 2011, which requires estimated minimum annual rental payments of \$46,000 and similar leases in New Delhi, India, for office premises and staff accommodation, expiring in June 2010 and May 2012, which require estimated minimum annual rental payments of \$13,000. In August 2007 the Company entered into another lease for staff accommodation in New Delhi expiring in August 2009, which will require estimated minimum annual rental payments of \$35,000.
