GOVERNMENT OF INDIA APPROVES PEBBLE CREEK'S ASKOT MINING LEASE

TSX-V: PEB

FOR IMMEDIATE RELEASE

Vancouver, British Columbia – October 9, 2007 – Pebble Creek Mining Ltd. (the “Company”) is pleased to announce that the Indian Ministry of Mines has approved the Company’s Mining Lease application on 386 Hectares at Askot and has returned it to the State of Uttarakhand for granting. Central government approval opens the way for the relevant authorities to process other permits and clearances such as environmental, forest and the Company’s mining plan. The Company has drafted all of these applications and has already submitted some of them.

Drilling is proceeding at the Company’s Askot and Gadarwara prospects under supervision of Andrew E. Nevin, P.Eng., a Qualified Person under NI 43-101.

At the Company’s Annual General Meeting on September 27, 2007, Douglas A. Nevin was elected as a director to fill the vacancy left by the resignation of David C.M. Bell prior to the AGM. Mr. Nevin is a businessman resident in North Vancouver.

The Company is well funded and committed to exploration and mine development in India. In addition to holding Askot and Gadarwara, it holds title to one other prospect and has 16 applications pending on a total of more than 14,000 square kilometres.

On Behalf of the Board

Gyan C. Singhai, P.Eng.

Executive Chairman

***Forward-Looking Statements.** This news release contains forward-looking statements, which address future events and conditions, which are subject to various risks and uncertainties. The Company's actual results, programs and financial position could differ materially from those anticipated in such forward-looking statements as a result of numerous factors, some of which may be beyond the Company's control. These factors include: the availability of funds; the timing and content of work programs; results of exploration activities and development of mineral properties; the interpretation of drilling results and other geological data, the uncertainties of resource and reserve estimations, receipt and security of mineral property titles; project cost overruns or unanticipated costs and expenses, fluctuations in metal prices; currency fluctuations; and general market and industry conditions.*

Forward-looking statements are based on the expectations and opinions of the Company's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise and, as such undue reliance should not be placed on forward-looking statements.

“The TSX Venture Exchange does not accept responsibility for the adequacy or accuracy of this release.”
