PEBBLE CREEK TO SPEAK AT PDAC, TORONTO, MARCH 1-4, 2009

TSX-V: PEB

FOR IMMEDIATE RELEASE

Vancouver, British Columbia and New Delhi, India – February 10, 2009 – Pebble Creek Mining Ltd. (the “Company”) is pleased to announce that the Indian Ministry of Mines has asked President and CEO Andrew Nevin to speak at the “Indian Day” session on March 3. The Ministry advised that it wishes to balance the government’s presentations with an assessment of opportunities and practices from the private sector.

India is less affected by the credit crisis than many other countries. It still has an enormous appetite for metals and materials. Its year-on-year GDP growth rate is estimated by the Economist at 5.6% for the fiscal year ending March 31, 2009. The Company believes India’s proposed New Mining Policy, which reforms regulations in favour of private-sector exploration and mining, will be enacted after this spring’s election.

The Company regards India as one of the world’s greatest underexplored and underdeveloped Precambrian shields, with a well developed commercial and industrial infrastructure, low costs, a government of laws, and an educated work force.

The Company has been in India since 1995. Its main project is the Askot copper, zinc, lead, silver and gold deposit. A Mining Lease for Askot has been approved by the Indian Ministry of Mines and Uttarakhand state government. Clearances from the Ministry of Environment and Forests are in progress. The Company also has a pipeline of other prospects in various stages of acquisition and exploration.

For the sixth consecutive year Pebble Creek will also have a booth at PDAC, #2647 in the Investors Exchange hall.

On behalf of the Board,
Gyan C. Singhai, Executive Chairman
